Where can I find the 2020 median sire price of my 2yo? This booklet lists all EU based sires with an established median price of €75,000 or less that are eligible to have a 2yo run in the race. For the complete list, that includes sires from outside the EU area, go to the HRI RAS site - <https://www.hri-ras.ie/race-planning/qualifications/>

What do you mean by Median Sire Price? The median sire price is the middle price point. It is not the same as the average price. The median price is the price in the very middle of a data set, with exactly half of the horses priced for less and half priced for more.

Who decides what the median sire price is? Weatherbys have determined the median sire price for this year's 2yos whose sire established one or more yearling sales at Public Auctions (after July 1st) in 2019.

What is the maximum number of runners in the race? The maximum number of runners in the race is 24.

What are the penalties? A winner of a listed race will receive a 5lb penalty and a winner of a Group race will receive a 7lb penalty.

If the numbers of declared runners need to be reduced, what is the process? Runners will be reduced by balloting from among those horses who have not run. In the event of not achieving the recommended limit, runners will then be reduced by balloting from among those horses that in the opinion of the Irish Handicappers, have the lowest adjusted ratings. International performances will be taken into account.
